

BIS Salamis

The BBSM (Behavioral Based Safety Management) award is presented each quarter in an effort to improve safety conditions. Employees monitor each other's work, and provide safety suggestions. They then fill out a BBSM card documenting their observations, and send them to the safety department. Each quarter, one of these cards is drawn, and the winner receives a prize for his participation in this safety initiative.

We would like to congratulate Eric Davis, our first quarter BBSM Top Gun Challenge winner. Mr. Davis is a blaster / painter who has been with the company since 2004, working on Shell projects.

Thank you to all employees who participated. Good luck next quarter!
